Help

Credential Management

Password - Modify

You will be logged off in 9 minutes

Before being able to define a new password, you have to select an **access question** and enter the corresponding answer. The personal passphrase function enables you to reset your password quickly and in an uncomplicated manner. You can find further information on the access question [under](#).

Please observe the "Passphrase Rules". Passphrase requirements which have not been fulfilled are marked by **!**

Select access question **1**

New answer **2**

Repeat the answer

Passphrase rules

Answer: 8 characters as a minimum	<input checked="" type="checkbox"/>
Answer was correctly repeated.	<input checked="" type="checkbox"/>
No leading or appended blanks in the answer	<input checked="" type="checkbox"/>

Credential Management v6.7 - A service of ITH/S and ITT/FT

1. Please choose an access question.

2. Enter your answer and repeat it. Please note the rules mentioned on the right.

IMPORTANT:

Please remember your access question answer. You might need it.

Password - Modify

Help

Your **password** has been **modified successfully**.

You can now use the new password.

Note:

If you have forgotten your password and also fail to remember the correct answer to your personal passphrase, you have the option to ask persons within your working environment to help you reset your password. Some persons have already been determined permanently for this process. You can determine further persons (so-called persons of trust) on your own under Password > Settings and MFA4Daimler > Settings.

Currently, the following persons are authorized to support you in the password reset process:

English

Credential Management v6.6 - A service of ITH/S and ITT/FT

Your new password was created and is now valid for one year.

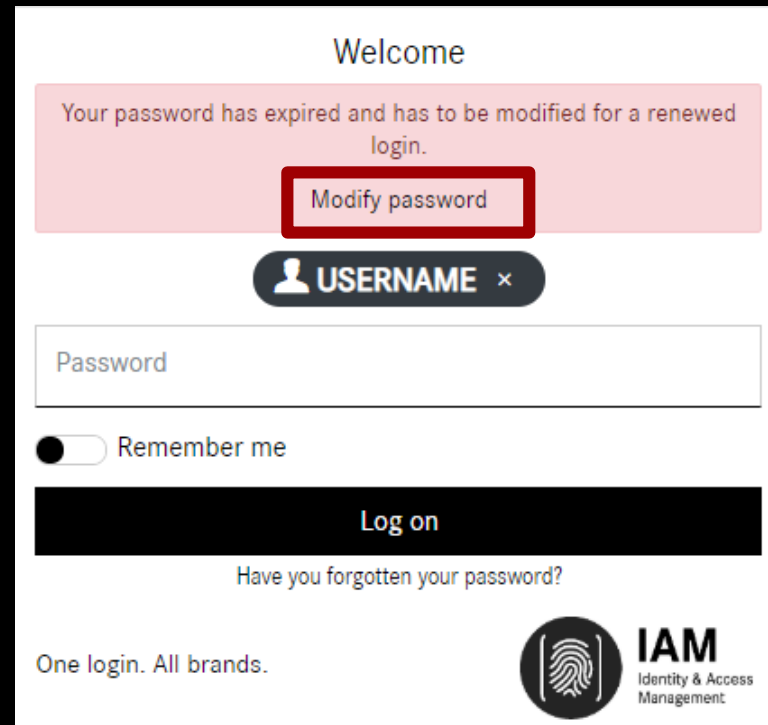

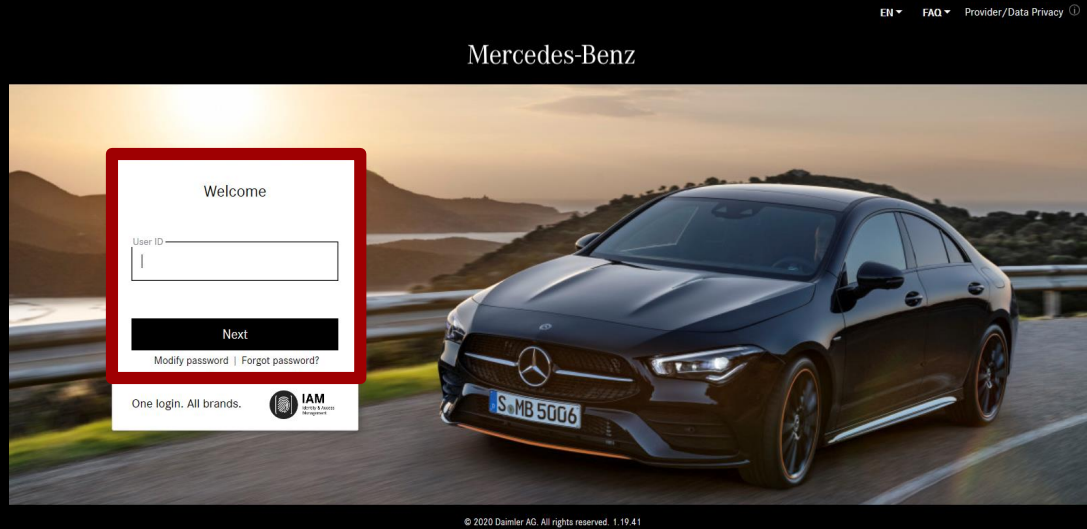

Please go back to the login page:
<https://b2bconnect.daimler.com/>

Change your password after one year

Open Mercedes-Benz B2B Connect:
<https://b2bconnect.daimler.com/>. Select "**Log in**",
enter your User ID and click on "**Next**".

If the message below then appears, your password has expired (passwords are only valid for one year). Please click on „**Modify password**“ in order to change the password yourself.
